	<p><b>Survival:</b> This website is made for the people who don't know how to survive in the wild. It provides some tips and tricks to survive in the wild. I realize that I have to made a website for survival if an apocalypse or disaster arrives and this website is the output of my Idea.</p> <p><b>Technology Used:</b> HTML5, CSS 3, and Bootstrap, Mobile-First Development, Responsive Web Design</p> <p>Link: <a href="https://josephusvincent.github.io/csp1/">https://josephusvincent.github.io/csp1/</a></p>
	<p><b>Capsluck:</b> This e-commerce website is made for people who want to buy hats online. I love to were hat inside or outside so why not make a website for hat lovers. I'm proud of making this website because I had more time making this website both backend and frontend than other projects that I made.</p> <p><b>Technology Used:</b> HTML5, CSS 3, Javascript, PHP, Bootstrap, jQuery, AJAX and MySQL, E-commerce Website, Responsive Web Design</p> <p>Link : <a href="http://jovit-tuitt-capstone.000webhostapp.com/">http://jovit-tuitt-capstone.000webhostapp.com/</a></p>
	<p><b>School Blog:</b> This website is made for the school to discuss pictures of lessons and student grades that teachers uploaded on this website. I'm still working on it's design.</p> <p><b>Technology Used:</b> Laravel 5.5, Bootstrap and Mysql</p> <p>Link: <a href="http://jovit.frifster.ml/">http://jovit.frifster.ml/</a></p>
