Survival: This website is made for the people who don't know how to survive in the wild. It provides some tips and tricks to survive in the wild. I realize that I have to make a website for survival if an apocalypse or disaster arrives and this website is the output of my Idea.

Technology Used: HTML5, CSS 3, and Bootstrap, Mobile-First Development, Responsive Web Design

Link: <https://josephusvincent.github.io/csp1/>

Capsluck: This e-commerce website is made for people who want to buy hats online. I love to wear hats inside or outside so why not make a website for hat lovers. I'm proud of making this website because I had more time making this website both backend and frontend than other projects that I made.

Technology Used: HTML5, CSS 3, Javascript, PHP, Bootstrap, jQuery, AJAX and MySQL, E-commerce Website, Responsive Web Design

Link : <http://jovit-tuitt-capstone.000webhostapp.com/>

School Blog: This website is made for the school to discuss pictures of lessons and student grades that teachers uploaded on this website. I'm still working on its design.

Technology Used: Laravel 5.5, Bootstrap and Mysql
